**The Litany: Transformative Service**

Leader: Zion's missionaries must commit to serving globally in a way that provides the means for God to transform people, churches, and communities from a state of brokenness and dysfunction into God's image.

People: We will teach those in need that their needs can be met through faith in God.

Leader: When missionaries love the ones they serve, there is a transforming effect that changes both the loved and the lover.

People: It is our duty to "let our lights so shine that others may see our service and to give God all the glory."

Leader: Transformative Service is a Kingdom principle that conveys the concept of missionary love in action.

All: We commit to serve God through serving others, as we seek to meet the needs of others for positive change.
